

Center for Restorative Services and Solutions Capability Statement

The Center for Restorative Services and Solutions (CRSS) cultivates trauma and resilience-informed workplaces, enhancing corporate wellness and mental health through comprehensive education, training, and consultation. We help companies support their employees' mental, physical, and emotional well-being. CRSS is known for building culturally inclusive environments and improving productivity and employee satisfaction.

Core Competencies

- CEU Accredited Trauma-Informed Human Trafficking Training
- Custom, Evidence-Based Curriculum Design
- Corporate Mental Health Consultation and Support
- Crisis Management for High-Profile Cases
- Diversity and Inclusion Training and Solutions
- Conflict Mediation and Restorative Circles
- Self-Care Workshops and Wellness Products

Differentiators

Customized Training Solutions: Provides tailored programs that address the unique cultural and organizational needs of each client.

Competitive Pricing: Offers affordable solutions without compromising on quality, ensuring value for every budget.

Problem-Solving Expertise: Proven track record of resolving specific client challenges and crises through innovative, evidence-based approaches.

Extensive Industry Expertise: Our team brings a combined 50+ years of experience as master-level mental health providers and nursing professionals, offering unmatched knowledge and credibility.

Professional Experience

- **Detroit Police Department:** Developed comprehensive trauma-informed training for the Detroit Police Department to address burnout, toxic stress, and vicarious trauma.
- **UCLA-UCSF ACEs Aware Family Resilience Network:** Supported the Office of the California Surgeon General in the development of curricula, including the 'Stressbusters' online course, focused on managing adverse childhood experiences (ACEs) and toxic stress.
- **Los Angeles County Department of Child and Family Services:** Developed a trauma-informed training curriculum to improve the effectiveness of county child protection efforts, in response to a high-profile case that highlighted critical gaps in existing practices.
- **UCLA's Learning Management System:** Spearheaded the creation and launch of a trauma-informed state-certified course, engaging 35,000+ enrollees in LA County.
- **Ohio Nurses Association:** Developed an accredited course on human trafficking for healthcare providers, focusing on recognition, trauma-informed care, and reporting protocols, accredited by the Ohio Nurses Association.
